PROFILE

I am a detail-oriented Front End Developer, highly adept at both independent and collaborative projects, with an emphasis on landing page and website develpment.

KEY PROJECTS

E-COMMERCE WEBSITE

Built an enterprise level React application and deploy to production. The app is built with cutting-edge technologies and features a user-friendly interface that makes it easy for customers to browse through products, add them to their cart, and make secure payments.

FACE-DETECTION APP.

Built a face recognition app where frontend, servers, and databases communicate and how they all fit together in the eco system.I have also implemented responsive design to ensure that the application is accessible on all devices.Through this project, I have gained valuable experience in utilizing third-party APIs, implementing responsive design, and troubleshooting complex technical issues.

WORK EXPERIENCE

PR MANAGMENT PRIVATE LTD.
Assistant project manager | 14th AUG 2022-15 SEP 2022

During my internship, I collaborated with a team of developers and designers to update and optimize the website, ensuring that it was user-friendly, responsive, and met industry standards. I also played a key role in project management, including task tracking, issue resolution, and automating the processes.
